

Unlocking QuickTime Pro

After installing QuickTime, you can unlock it to access QuickTime Pro for even more multimedia capabilities. To unlock QuickTime Pro, you need to enter a valid user name and registration number.

- 1** Drag the Get QuickTime Pro icon from your desktop to the Trash.
- 2** Open the QuickTime Settings control panel, located in the Control Panels folder in the Apple () menu.
- 3** Choose Registration from the pop-up menu at the top of the control panel.
- 4** Click Enter Registration.

(continued)

- 5 Type the name and registration number shown on the label below. If you see a 0, be sure to type the numeral 0 (zero), not the letter O.
- 6 Click OK.

Note: For information about QuickTime Pro, visit the QuickTime Web site at <http://www.apple.com/quicktime/>
