SYSTEM 75®R1V3n
CLASS QC CHANGE
(Software R1V3 Issue 3.5)

_____

11900 North Pecos St.
Denver, Colo. 80234
November 20, 1995

This Change Notice is for System 75®R1V3 customers HCMR format tape. PG65330-01 Issue 3.5 R1V3A.b9.15 contains changes as described in the Change Information Errata Sheet section of this change notice.

The Change Notice supersedes 743DR.

Issue 3.5 (R1V3a.b9.15) is NOT intended to applied to all System 75O R1V3 systems. It applies only to systems with problems corrected by this release, see Information Errata Sheet section and verified by Tier III.

NANP   The North American Numbering Plan is included in this software load. However; it is not activated and should not be unless purchased by the customer.

Customers that require a new tape for maintenance reasons shall upgrade all tapes in the switch to Issue 3.5.

BILLING INFORMATION

This change requires service to be interrupted and shall be implemented on a no charge basis to all qualified customers under warranty, lease or maintenance contract. T&M customers will be billed for labor using SPE 0206-900.

COORDINATION

Coordination is not required with any other QPPCN.

REASON FOR CHANGES

Reasons for this change are summarized in the Change Information Errata Sheet.

Issue	Software Vintage	Internal Release	Patched Vintage *
R1V1			
1.2	3427	R1L1B.f2.35	
1.3	4126	R1L1C.a1.30	
1.4	4358	R1L1C.b1.6	4359
1.5	4364	R1V1C.b1.12	4365
1.6	4416	R1V1C.b2.0	
R1V2 XE			
1.0	14346	R1V1D.a1.10 (AKA JR20)	
1.1	14347	R1V1D.a1.11 (AKA JR21)	14357
1.4	14351	R1V2D.a1.15 (AKA JR25)	14361
1.5	14356	R1V2D.a1.20 (AKA JR30)	
R1V2			
1.0	8215	R1V2A.a1.23	
1.1	8218	R1V2A.a1.26	
1.2	8224	R1V2A.a1.32	8225
1.3	8326	R1V2A.a3.6	8327
1.4	8389	R1V2A.a4.5	8390
1.5	8453	R1V2A.b1.5	
R1V3			
1.0	16643	R1V3A.a9.3	
1.1	16675	R1V3A.a10.3	16676
1.2	16962	R1V3A.b3.2	
1.3	16966	R1V3A.b3.6	
1.4	17026	R1V3A.b5.2	
1.5	17028	R1V3A.a5.4	
1.6	17060	R1V3A.b6.4	
1.7	17062	R1V3A.b6.6	
2.0	17123	R1V3A.b8.3	
2.1	17153	R1V3A.b9.1	

Note: Any tape not corresponding to an official issue should be upgraded to the most recent issue.

* The "patched vintage" applies to systems that have been patched with the TN742 maintenance change. The patch is not necessary in the R1V1 Issue 1.6, R1V2 Issue 1.5 (standard and XE) or the R1V3 Issues beginning with 1.2.

QPPCN 799DR----CUSTOMER INFORMATION SHEET

- Previously, customers in Overlay and Metro-Extended Local NPA area could not complete both 7 and 10-digit calls. Both 7 and 10 digit calls will now complete in this scenario.

- Previously, When a customer experienced a reset sys 4 or power outage, processor channels did not come back up. The processor channels will now come up in a functioning mode after a reset system 4 or power outage.

- Previously, the Emergency Attendant Access feature could tie up the attendant console. This is no longer the case.
