Multifunction Printer

- Up to 25ppm Mono and 20ppm Colour print speed
- Direct photo printing via camera using PictBridge
- Print at up to 6,000dpi resolution with a minimum droplet size of 1.5pl.
- Four individual ink cartridges with fade resistant ink

# DCP-135C

Sleek and compact to fit in every home, the DCP-135C is the perfect multifunction printer for all the family to use.

**This fabulous multifunction colour printer is a must-have for every home and fits stylishly into any space. Getting started couldn't be easier, just plug in and go - for colour printing, copying and scanning functions at your fingertips. Whether you have projects to copy and print or you have old family photographs you want to scan, you'll be amazed at the quality.**

**Just think of the convenience of being able to print high-quality photographs straight from your digital camera when you get back from holiday. You'll love the natural, true-to-life colours – and photo printing on a Brother machine can cost much less than a specialist photo printer.**

We know saving money is important to our customers, which is why all our colour inkjet multifunction printers have separate ink cartridges – this means you only replace the colour that has run out – saving you lots of money in the future.

What's more, have fun with the FaceFilter software supplied FREE

with your DCP-135C – put an end to red eye on all your photos, or dare we suggest going a bit further and airbrushing out the odd wrinkle or two? We won't tell anyone!

To achieve high quality printing we recommend using Brother's Innobella™ ink and paper technology.

## Technical Specifications

### General
