Fax-930

Plain paper fax digital message centre

Key Features

Digital answering machine

The latest digital technology gives up to 15 minutes recording time and isn't prone to wear and tear.

Plain paper fax

Output from the Fax-930 doesn't fade, is easy to file and can be re-faxed - saving you time and money.

- **High speed transmission** By using the Fax-930's high speed 14,400 bps modem, fax pages can be transmitted in as little as 9 seconds.
- **Up to 20 page memory[†]** Receives faxes even when the paper has run out so you don't miss important communications.
- **10 sheet document feeder** Saves time by allowing you to stack a multiple page document for transmission.
- **48 speed dial stations** Lets you quickly call regularly used numbers. Includes 16 one-touch pre-set destinations and 32 speed dial stations.
- **64 grey scales** Gives high quality transmission of photographic images and fine details.
- **Fixed cost per copy** All incoming faxes have the same cost per copy - making your running costs controllable.
- **Plain paper copying** With enlarging and reducing modes, the Fax-930 gives you the convenience of a copier on your desk.
- **Fax retrieval** By using a unique PIN number you can access the Fax-930 and have your messages sent to another fax machine - almost anywhere in the world.
- **Fax forwarding** By pre-setting the Fax-930, you can automatically forward your fax messages to any other fax machine.
- **Message paging** The Fax-930 alerts you if there are messages left on your answer phone. These can be accessed from your mobile phone, or any other phone.
- **Broadcasting** Sends one fax to multiple destinations.
- **Caller line identification*** Displays the number of the caller and enables you to personalise your greeting.

Fax-930

Wherever your business takes you - the Fax-930 k

Fax-930 digital message centre

Remote message retrieval

If you work from home, or in an environment without a dedicated resource to handle your phone and fax messages, the Fax-930 Digital Message Centre offers you the perfect solution. Its message forwarding and fax retrieval facilities keep you up-to-date with all your messages – wherever your business takes you, whether at home or abroad.

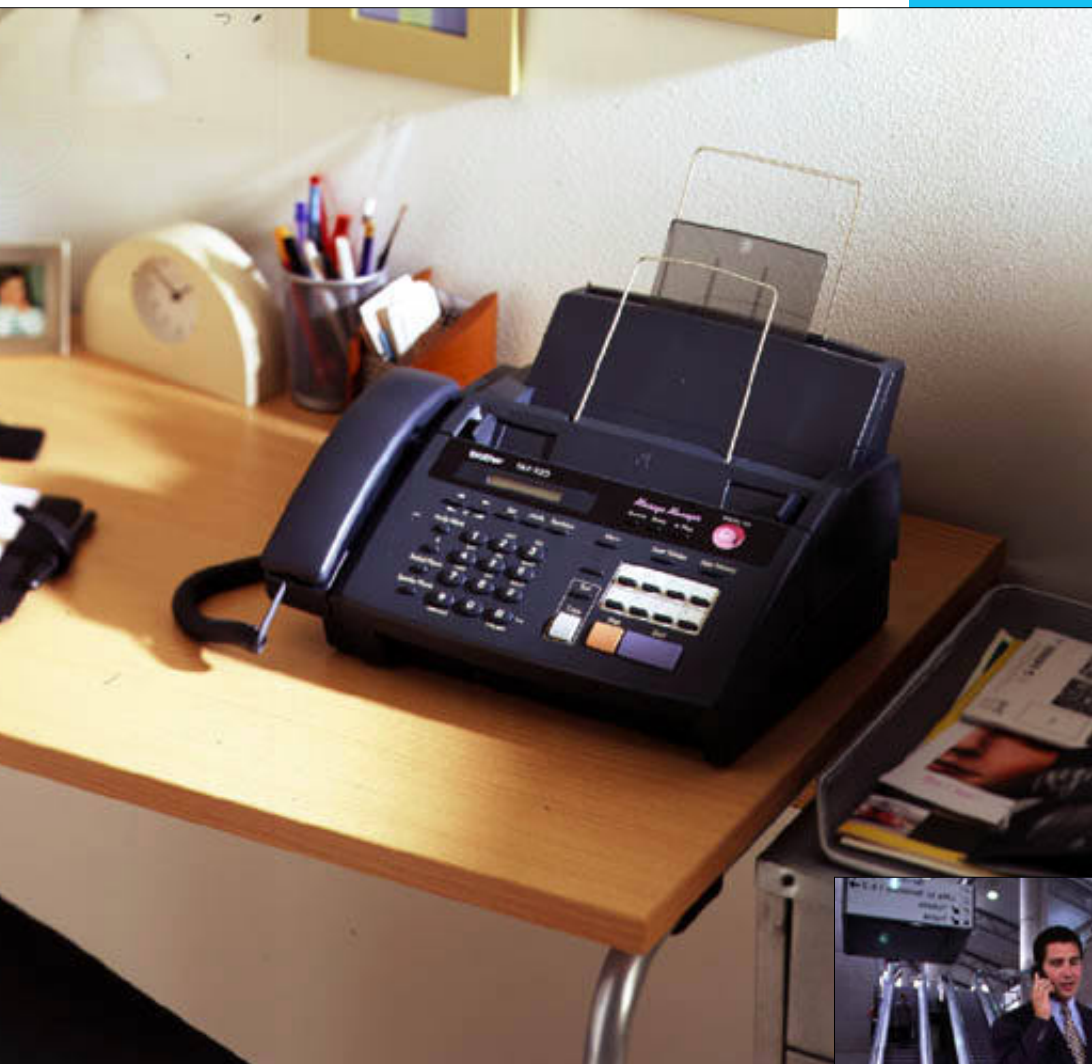

Fax forwarding

Before you leave the office, you can program the Fax-930 and your fax messages can be re-directed to another designated fax machine.

Remote message retrieval

When you're away from the office, you can access the Fax-930 by phone or by fax and have your fax or phone messages replayed or sent to you – almost anywhere in the world.

keeps you in touch.

Message paging

If you have a mobile phone, you need a facility that keeps you up-to-date with all your incoming telephone messages. The Fax-930 message paging facility does this by alerting you of any received calls, these can then be accessed, using a security PIN number.

Digital message paging

15 minute digital answerphone

With up to 15 minutes of recording time, the Fax-930 ensures important messages aren't missed. The latest digital technology also gives fast message access and is not prone to wear and tear.

Non-fading fax and copy output

The Fax-930 outputs onto plain paper, giving you long term fax records. The copy feature, with reduction and enlargement, provides the perfect convenience copier for the small office.
