HL-1030

LASER PRINTER

Cost-effective performance is a critical consideration when choosing a printer, and this Windows-dedicated model is exceptionally economical to run. What's more, it incorporates a number of paper, toner and energy saving features, making it a particularly good option for cost-conscious users.

However, affordability and economy don't mean you have to compromise on quality. The machine's powerful processor, large 2MB memory, optimised software and fast 10 page per minute print engine achieve first page print out in under 15 seconds and mean large print jobs are completed quickly. With 600dpi print quality, all print outs will be crisp and clear.

What's more, a compact new shape means the printer fits neatly onto your desktop.

A well-designed control panel makes it very easy to use, and Brother's superior build standards ensure a long life.

Practical and user-friendly, it handles a wide range of paper types and sizes with ease, and features a built-in 'on-screen Interactive Help' function, serving as a 24 hour help desk. It's this combination of economy and performance that makes the HL-1030 an ideal printer for any user looking for a cost-effective solution.

Specifications

engine		Technology	electrophotographic
		Print speed	up to 10ppm
		Warm up time	less than 45sec
		First print time	less than 15sec
		Resolution	up to 600x600dpi with Windows
controller		Processor	MB86833 66MHz
		Memory (standard)	2MB
		Memory (optional)	None
		Interface (standard)	IEEE 1284 bi-di Parallel
		Interface (optional)	10Base T
		Emulation	N/A
		Auto emulation switching	N/A
		Printer driver (standard)	Windows 3.1/95/98 NT4.0
		Other software	Automatic E-mail printing
network		Optional Solution	NC-2010P (external)
		Interface	10Base T (NC-2010P)
		Protocol	TCP/IP, IPX/SPX, DEC LAT Banyan Vines, NetBEUI, DLC/LLC
control panel		Display	4 LEDs
		On/Off Switch	Yes
paper handling		Paper tray input (standard)	250 sheets
		output	150 sheets face down
		sheet sizes	A4, B5, A5, A6, Letter, Legal, Executive
		sheet weight	64-105g/m2
		other media	OHP
		Manual feed	1 sheet
		input	min 70(w)x116(d)mm
		sheet sizes	max 216(w)x356(d)mm
		sheet weight	64-158g/m2
		other media	OHP, envelopes, labels
		Multiple page printing	2 in 1, 4 in 1, 9 in 1, 16 in 1 25 in 1, 1 in 2x2, 1 in 3x3 1 in 4x4, 1 in 5x5
		Duplex	Manual
supplies/life		Toner	TN-6300: 3,000 A4 pages@5% TN-6600: 6,000 A4 pages@5%
		Drum	DR-6000: up to 20,000 A4 pages (1 page per job)
other		Dimensions (mm)	360(w)x370(d)x235(h)
		Weight	20.3lb/9.2kg inc. toner/drum
		Power consumption (printing)	Average 340W
		Power consumption (standby)	Max 80W
		Power consumption (sleep)	Max 5W
		Noise level (printing)	49dBA
		Noise level (standby)	27dBA
		Ecology (toner save)	Yes
		Ecology (power save)	Yes
		Features	On-screen Interactive Help, Quick Print Set-up, Watermark, Status Monitor function
