## LASER PRINTER

Speed, crisp print quality, versatility and economical operation make the HL-1240 laser printer ideal for even the most demanding workload.

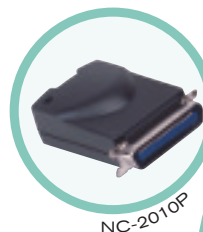

The combination of a powerful processor, large 2Mb memory, optimised software and Brother's fast 12 page per minute print engine achieves first page print out in just 15 seconds, and means large print jobs are completed quickly.

Compatible with both Windows and DOS, the HL-1240 also comes with a printer driver for Apple iMac, G3 and G4. Parallel and USB ports as standard enable easy connection.

The compact new model fits neatly onto your desktop, and its simple, well-designed control panel is extremely easy to use. The Windows drivers also include useful features such as an 'on-screen

Interactive Help' function and a 'Quick Print Set-up' function, enabling you to control printer settings direct from your task bar.

The HL-1240 offers affordability without compromising on quality. Economical to run, it also incorporates power, toner and paper saving facilities, making it a cost-effective printing solution for any application.
