Link your new network with new levels of speed, reliability and efficiency.

The sharing of information, swiftly and simply across a network of computers has become common practise in the contemporary office. Brother believe that network printing should be equally efficient, hence the introduction of the innovative new HL-5070N.

The HL-5070N has all the right connections for business, including Ethernet connectivity and a "High Speed" USB port as standard. It also offers rapid processing (up to 16 pages per minute), professional printing (2400x600dpi), a generous

output (as much as 20,000 pages per month), and an optional 250 sheet lower tray (ideal for alternative stock).

Indeed, the HL-5070N is such an efficient worker, you and your staff will find yourselves working hard just to keep up with it.
