Save More With Every Print

Meet your business demand and save on running costs with super high yield cartridges offering 2400* page-yield in black and 1,200* page-yield per colour cartridge.

You may also save more ink with Ink Save Mode, which is ideal for printing draft documents without excessive ink wastage. Plus, an individual ink cartridge system allows you to replace only the colours you need and still print in black even if colour cartridges run out.

Additionally, deliver high impact A3 colour printouts and documents by taking your A3 printing in-house. Last but not least, you may save on paper costs with the automatic 2-sided printing option.
