

A3 – IT MAKES A BIG DIFFERENCE...

...TO PRINTING

Work or personal: all your printing will make a bigger impact – whether it's a presentation, a blueprint, a spreadsheet or a photo for framing.

...TO COPYING

You've got an A3 original – you get an A3 copy; no messing around sticking two A4 sheets together or reducing down to A4 so all the impact is lost. Plus enlarge text and graphics up to A3 for easier reading and proofing.*

...TO SCANNING AND FAXING

Not all documents are A4 – our high resolution scanner gives you the flexibility to scan multiple documents up to A3. Need to fax to A3? You can do this as well.*

...WHETHER IT'S IN THE OFFICE OR AT HOME

All of the Brother compact A3 inkjet all-in-ones give you not only the impact of A3 – and the option of A4 – but also fast, flexible, reliable and affordable multi-function performance. In a work station, in the office, or on your desk in the spare room – you certainly haven't got the biggest, but you've definitely got the best compact A3 inkjet all-in-one you can buy.

*MFC-J6910DW A4 only

GET THE 141% ADVANTAGE

141% is the difference between A4 and A3. But to Brother, it's also about doing more, trying harder, thinking bigger. Striving for excellence and then going that little bit further.

You're used to putting 141% into everything you do, and we think it's about time you had a printer that did the same. With our new range of multifunction inkjet printers, you can print an entire ream of 500 A4 sheets in under 15 minutes.* Our XL cartridges will also help you considerably reduce running costs.

The latest wireless 'N' technology means you can share the speed and all the other benefits of your Brother compact A3 inkjet all-in-one with the rest of the team in your office, or the family at home.

The ideal, flexible solution that gives you the advantage, wherever you are and whatever printing requirements you have.

- ✓ Printing impactful, high quality professional documents – FAST
- ✓ Printing at home or in the office – saves money printing elsewhere
- ✓ Detailed multiple page copying
- ✓ Precision colour network scanning
- ✓ Creating first class in-house material, including A5 booklet printing
- ✓ Sharing between multiple users
- ✓ Environmentally conscious homes and businesses
