

IMPORTANT NOTICE: FCC LICENSE REQUIRED

The PR 950 DX and PR 1100 WX two-way radios operate on GMRS (General Mobile Radio Service) frequencies which require an FCC (Federal Communications Commission) license. Information on how to apply for a license is included in the owner's manual. A user must be licensed prior to operating on channels 1 – 7 or 15 – 22, which comprise the GMRS channels of the PR 950 DX and PR 1100 WX. Serious penalties could result for unlicensed use of GMRS channels, in violation of FCC rules, as stipulated in the Communications Act's Sections 501 and 502 (amended).

Licensed users will be issued a call sign by the FCC which should be used for station identification when operating a PR 950 DX or PR 1100 WX. GMRS users should also cooperate by engaging in permissible transmissions only, avoiding channel interference with other GMRS users, and being prudent with the length of their transmission time.

Questions regarding the license application should be directed to the FCC at 1-888-CALL FCC. Additional information is available on the FCC's website at: www.fcc.gov
