Honda Music Link

Designed specifically for Honda vehicles. Honda Music Link allows you to play music from your Apple® iPod® on your vehicle's audio system. Once connected, you can use the controls on your vehicle's audio system to play music from your iPod, and it charges your iPod battery.

This Quick Reference Guide will help you get started using Honda Music Link guickly. See the User's Guide on the Honda Music Link CD-ROM to learn how to use all of Honda Music Link's features

Connecting Your iPod

Switch your iPod to music mode. Find the Honda Music Link cable installed inside the glove box, and plug it into the dock connector port located on the bottom of the iPod. When the Honda Music Link cable is properly connected, a check mark appears on the iPod screen (right), and the iPod can only be operated using your vehicle's audio system controls.

NOTE: Honda Music Link can be used with iPod (4th-generation or later), iPod mini®, iPod nano®, and iPod video. It does not work with the iPod shuffle®. Make sure your iPod has been updated with the latest firmware from Apple.

Disconnecting Your iPod

To disconnect the iPod, squeeze both sides of the Honda Music Link cable connector and unplug the cable. You can connect and disconnect your iPod while the audio system is on or off.

IMPORTANT:

- For your safety, do not connect or disconnect the iPod while driving.
- Secure the iPod in the glove box. Do not place it on or allow it to fall onto the vehicle floor. where it can get stuck under the brake pedal or accelerator pedal.
- Do not leave the iPod in the vehicle in high temperatures or expose it to extended periods of direct sunlight; doing so may damage it.
- To avoid damaging the Honda Music Link cable, do not pull strongly on the cable. Always keep the connector dry, and cap the connector when it is not in use.

Honda Music Link allows you to use the buttons on your audio system to control iPod functions. There are two ways* to listen to music: You can *shuffle all albums* or *shuffle all songs*. Selecting disc number 5 on your audio system corresponds to the *shuffle all albums* play mode, while selecting disc number 6 corresponds to the *shuffle all songs* play mode.

Playing Music

- 1. Connect the iPod (see page 1), turn the ignition switch to the ON (II) or ACC (I) position, and turn on the audio system.
- Select Honda Music Link by pressing the CD/AUX or CD/AUX/XM button (depending on your Accord model). If the audio system plays a disc in the CD player/changer or plays the XM radio, press the CD/AUX or CD/AUX/XM button again. Honda Music Link begins playback with the last song played on the iPod. If no song is queued, Honda Music Link shuffles all songs in random order.

- To shuffle the albums on your iPod in random order, use the DISC- and DISC+ buttons
 (Preset 5 and Preset 6, respectively) or the CH DISC button to scroll thru the disc numbers
 until **Disc 5** is displayed in the audio display. Then press and hold either SEEK/SKIP button
 (➤ or ◄) for at least 1 full second (or, on some models, until you hear a beep). After the
 album begins playing:
 - Press and release the SEEK/SKIP button to skip to the next song (►→) or to skip to the beginning of the song currently playing (►→) within an album.
 - Press and hold either SEEK/SKIP button (→ or ◄) for at least 1 full second (or, on some models, until you hear a beep) to skip to the beginning of another album.
- To shuffle all songs in random order, use the DISC- and DISC+ buttons (Preset 5 and Preset 6, respectively) to scroll thru the disc numbers until Disc 6 is displayed in the audio display. Then press and hold either SEEK/SKIP button (→ or → for at least 1 full second (or, on some models, until you hear a beep). After selecting this play mode, press and release the SEEK/SKIP button to skip to the next song (→) or to skip to the beginning of the one currently playing (→).

^{*} See the User's Guide on the Honda Music Link CD-ROM for additional play modes/categories.

Honda Music Link uses the audio system buttons shown in **blue**. Honda factory-installed audio systems vary from model to model and may have slightly different button names for the same function. See page 2 for instructions.

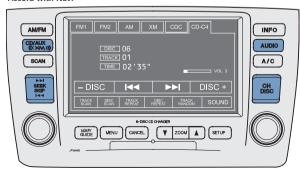

Accord VP. SE. LX, LX-V6, and EX

On the Accord EX V6 and EX-L, use the CD/ AUX/XM button.

Accord with Navi

mode.

Using the Audio System Controls

Honda Music Link allows you to use the buttons on your audio system to control iPod functions. There are two ways* to listen to music: You can *shuffle all albums* or *shuffle all songs*. Selecting disc number 5 on your audio system corresponds to the *shuffle all albums* play mode, while selecting disc number 6 corresponds to the *shuffle all songs* play

NOTE: Honda Music Link uses the audio system buttons shown in **blue** in the illustration (*right*). Honda factory-installed audio systems vary from model to model and may have slightly different button names for the same function

Fit Sport

Playing Music

- 1. Connect the iPod (see page 1), turn the ignition switch to the ON (II) or ACC (I) position, and turn on the audio system.
- Select Honda Music Link by pressing the AUX button. If the audio system plays an accessory connected to the auxiliary jack, press the AUX button again. Honda Music Link begins playback with the last song played on the iPod. If no song is queued, Honda Music Link shuffles all songs in random order.

- To shuffle the albums on your iPod in random order, use the DISC- and DISC+ buttons (Preset 5 and Preset 6, respectively) to scroll thru the disc numbers until **Disc 5** is displayed in the audio display. Then press and hold either SEEK/SKIP button (►► or ►► or ►►) for at least 1 full second (or, on some models, until you hear a beep). After the album begins playing:
 - Press and release the SEEK/SKIP button to skip to the next song (►) or to skip to the beginning of the song currently playing (◄) within an album.
 - Press and hold either SEEK/SKIP button (→ or → or → for at least 1 full second (or, on some models, until you hear a beep) to skip to the beginning of another album.

^{*} See the User's Guide on the Honda Music Link CD-ROM for additional play modes/categories.

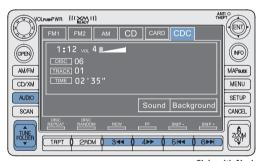

Selecting a Play Mode (continued)

• To shuffle all songs in random order, use the DISC- and DISC+ buttons (Preset 5 and Preset 6, respectively) to scroll thru the disc numbers until Disc 6 is displayed in the audio display. Then press and hold either SEEK/SKIP button (→ or → for at least 1 full second (or, on some models, until you hear a beep). After selecting this play mode, press and release the SEEK/SKIP button to skip to the next song (→) or to skip to the beginning of the one currently playing (→).
