Productivity, flexibility and scalability at a great price

IBM

IBM Infoprint 1332, Infoprint 1352, Infoprint 1372 and IBM MFP Options

Infoprint 1332

Infoprint 1372

Consolidating IT hardware

By upgrading the Infoprint 1332, Infoprint 1352 and Infoprint 1372 with any one of the IBM M22, M26 and M30 MFP Options, you can consolidate full-function copy, fax and network scan capabilities, including fax from work-station, scan to e-mail and FTP on to one device. This can help leverage your IT investment and reduce device management time.

Relying on world-class service

With IBM service, you receive high-quality, reliable support from experts with a comprehensive knowledge of IBM printers, software and supplies. Next-day 9x5 and same-day 24x7 service offerings are available on all IBM printers in the US.

Highlights

■ *Delivers output at fast print speeds for exceptional productivity*

■ *Offers a wide range of input and output options for increased flexibility*

■ *Integrate easily with multi-function options*

■ *Provide expert onsite printer repair from specially trained professionals*

To compete effectively in today's demanding business environment, businesses need affordable and reliable printing solutions. Designed for small, medium and large sized workgroups, the IBM Infoprint® 1332, Infoprint 1352 and Infoprint 1372 deliver fast print speeds, flexible connectivity and extensive input and output options to enable a scalable solution.

Enabling quick output and high-quality

The Infoprint 1332, Infoprint 1352 and Infoprint 1372 can help you achieve fast turnaround and help make your workgroup more productive with output delivery of up to 35, 40 and 45 ppm respectively. And all the printers provide 1200 x 1200 dots-per-inch (dpi) resolution for crisp text and high-quality graphics.

e business printing solutions

Printers at a glance	IBM Infoprint 1332	IBM Infoprint 1352	IBM Infoprint 1372
Maximum speed (up to)[1]	35 ppm	40 ppm	45 ppm

[1] Exact speed varies depending on document complexity, system configuration, software application, driver and printer state.
[2] IBM does not recommend printing this monthly maximum on a consistent basis.
[3] Printer stands are available for improved stability.
[4] Assumes 5% toner coverage per page. Toner yields are provided for planning purposes and are not a guarantee of minimum life; actual yields may vary.

[1] The M30 requires a network model IBM Infoprint 1332, Infoprint 1352 or Infoprint 1372.
[2] Exact scan speed varies depending on the document attributes, system configuration and user selected settings.
[3] MFP furniture and printer stands are available for improved stability.

Improve processing time and create a scalable output solution by upgrading the IBM Infoprint 1352 with the IBM M26 MFP Option.
