- IN USE/CHARGE Indicator (1-C, 4-A)
- Charge Contacts (5-A)
- HANDSET LOCATOR Button (4-A)
1-C Setting Up

1 Connect as shown.

Power Outlet (AC 120 V, 60 Hz)

AC Adaptor

Single-Line Telephone Jack (RJ11C)

Telephone Line Cord

Hook
Fasten the cord to prevent it from being disconnected.

• USE ONLY WITH Panasonic AC ADAPTOR KX-TCA51-SS
• The AC adaptor must remain connected at all times.
(It is normal for the adaptor to feel warm during use.)
• To connect a standard telephone on the same line, see section 5-F.

2 Extend the antenna fully.

STOP 3 Charge the battery for about 10 hours.

• See section 5-A for more details.
• The IN USE/CHARGE indicator lights.

To select the dialing mode TONE (preset) or PULSE

The TALK indicator light must be off before programming.

Press [PROGRAM] ➤ [AUTO] ➤ OR [#] twice (PULSE) / [*] twice (TONE) ➤ [PROGRAM].*

• To cancel during programming, press [PROGRAM], then restart from the beginning.
• If 3 beeps sound during programming, a wrong key was pressed. Restart from the beginning.

*A confirmation tone sounds as follows;
1 beep: The mode is different from the previously selected one.
2 beeps: The mode is the same as the previously selected one.

2-A Making Calls
1 Press TALK .
- The indicator lights.
- If an alarm tone sounds, see 5-E.

2 Dial a telephone number.

3 To hang up,
press TALK or place the handset on the base unit.
- The TALK indicator light goes out.

OPERATING DISTANCE

To maximize the distance of the handset from the base unit, see section 5-C.

REDIAL

TALK and Indicator

LOUD/RINGER

FLASH

CH

If you misdial

Press FLASH firmly. ➡ Dial again.

To redial the last number dialed

Press TALK ➡ REDIAL .
To select the receiver volume

Press LOUD/RINGER while talking.
- Each time you press the button, the volume level will change from MEDIUM (preset) to HIGH to LOW.

If noise interferes with the conversation

Press CH to select a clear channel or move closer to the base unit.

2-B Answering Calls

TALK and Indicator

LOUD/RINGER

If the handset is off the base unit,
press TALK .
- You can also answer a call by pressing any dialing button 0 to 9 , ⚹ or #
(– **Any Key Talk**).

OR

If on the base unit,
just lift up.

Adjusting the ringer volume

The TALK indicator light must be off.

- **To select HIGH (preset) or LOW,**
press LOUD/RINGER briefly.
(Each time you press the button briefly, the selected volume will ring and the ringer volume will change.)

- **To turn the ringer OFF,**
press and hold LOUD/RINGER until 2 beeps sound.

- **To turn the ringer ON,**
press LOUD/RINGER briefly.
The ringer will sound at the HIGH level.

3-A Storing Phone Numbers in Memory

You can store up to 10 phone numbers. The dialing buttons ([0] to [9]) function as memory stations.

The TALK indicator light must be off before programming.
1 Press [PROGRAM].
- The TALK indicator flashes.

2 Enter a phone number up to 16 digits.

3 Press [AUTO].

4 Press a memory station number ([0] to [9]).
- A confirmation tone sounds. (See right side.)
- The TALK indicator light goes out.
- To store other numbers, repeat steps 1 through 4.
- If a pause is required for dialing, [PAUSE] can be stored in a phone number counting as one digit (4-E).

[AUTO]

TALK Indicator

Memory Station Number

[PROGRAM]

If you misdial
Press [PROGRAM] to end storing.
➡ Restart from step 1.

To erase a stored number
Press [PROGRAM] ➡ [AUTO] ➡
the memory station number ([0] to [9]) for the phone number to be erased.
- A beep sounds.

What the confirmation tone means
1 beep: The new number is stored.
2 beeps: The number is the same as the previously stored one.

3-B Dialing a Stored Number

1 Press [TALK].

2 Press [AUTO].

3 Press the memory station number ([0] to [9]).
- The stored number is dialed.

[AUTO]

[TALK]

Memory Station Number

4-A Handset Locator

You can locate the handset or page the handset user with beep tones.

1 Press [HANDSET LOCATOR] on the base unit.

• The IN USE/CHARGE indicator flashes and the handset beeps for 1 minute.

2 To stop paging, press [HANDSET LOCATOR] again or press [TALK] twice on the handset.

4-B Automatic Security Code Setting

Whenever you place the handset on the base unit, the unit automatically selects one of 65,000 security codes. These codes help prevent the unauthorized use of your telephone line by another cordless telephone.

4-C For Call Waiting Service Users

Press [FLASH] briefly if you hear a call-waiting tone while talking.

• The first call is put on hold and you can answer the second call.
• To return to the first caller, press [FLASH] again.

4-D Temporary Tone Dialing (For Rotary or pulse Service Users)

Press [TONE] before entering access numbers which require tone dialing.

• The dialing mode changes to tone. You can enter numbers to access answering service, electronic banking service, etc. When you hang up, the mode will return to pulse.

4-E How to Use the PAUSE Button
(For Analog PBX Line/Long Distance Service Users)

We recommend you press [PAUSE] if a pause required for dialing with a PBX or to access a long distance service.

Ex: Line access number [9] (PBX)

[9] ➡ [PAUSE] ➡ [Phone number]

• Pressing [PAUSE] once creates a 3.5 second pause.
This prevents misdialing when you redial or dial a stored number.
• Pressing [PAUSE] more than once increase the length of the pause between numbers.

[HANDSET LOCATOR]

IN USE/CHARGE Indicator

5-A Battery

Recharge

When the BATT LOW indicator flashes or the unit beeps intermittently, place the handset on the base unit to recharge the battery for about 10 hours.

• If you DO NOT recharge the handset battery for more than 30 minutes, the BATT LOW indicator will continue to flash.
BATT LOW
Indicator

Battery information

If your Panasonic battery is fully charged;

| Operation	Approx. battery life
While in use (TALK)	Up to about 8 hours
While not in use (Stand-By)	Up to about 30 days

• Battery life may vary depending on usage conditions and ambient temperature.
• The battery cannot be overcharged.
• **Clean the handset and the base unit charge contacts with a soft dry cloth once a month. Clean more often if the unit is subject to grease, dust or humidity.** If not, the battery may not charge properly.
• After your Panasonic battery is fully charged, you do not have to place the handset on the base unit until the BATT LOW indicator flashes. This will maximize the battery life.

5-C Base Unit Location

Calls are transmitted between the base unit and the handset using wireless radio waves. **For maximum distance and noise free operation**, the recommended base unit location is:

Away from electrical appliances such as a TV, radio, or personal computer.

In a HIGH and CENTRAL location with no obstructions such as walls.

Extend the antenna.
5-B Battery Replacement

If the BATT LOW indicator flashes after being fully charged, replace the battery with a new Panasonic P-P301 (KX-A36A) battery. To order, call 1-800-332-5368. To prevent memory loss, replace within 5 minutes.
1 Remove the cover by sliding it while pressing the arrow.

2 Replace the battery, then close the cover.

**3** Be sure to charge the new battery for about 10 hours.

Attention:
—The product you have purchased is powered by a nickel cadmium battery which is recyclable. At the end of its useful life, under various state and local laws, it is illegal to dispose of this battery into your municipal waste stream. Please call 1-800-8-BATTERY for information on how to recycle this battery.

5-D Wall Mounting

This unit can be mounted on a wall phone plate.
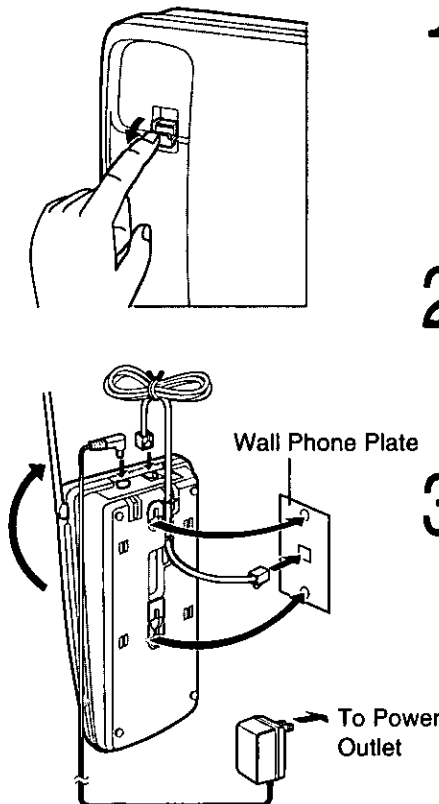

1 Pull down the handset hook until it locks, **so the tab holds the handset.**

2 Connect the AC adaptor and telephone line cord.

Wall Phone Plate

3 Mount the unit then slide down.

• Extend the antenna fully.

To Power Outlet

5-E Before Requesting Help

Problem	Remedy
The unit does not work.	• Check the settings (1-C). • Charge the battery fully (5-A). • Clean the charge contacts and charge again (5-A). • Install the battery properly (5-B). • Place the handset on the base unit and unplug the AC adaptor to reset. Plug in, then try again. • Re-insert the handset battery within 5 minutes to avoid memory loss and place the handset on the base unit. Then try again.
An alarm tone sounds when you press [TALK].	• You are too far from the base unit. Move closer and try again. • Place the handset on the base unit and try again. • Plug in the AC adaptor. • Extend the base unit antenna fully.
Static, sound cuts in/out, fades. Interference from other electrical units.	• Locate the handset and the base unit away from other electrical appliances (5-C). • Move closer to the base unit. • Extend the base unit antenna fully. • Press [CH] to select a clearer channel.

Problem	Remedy
The unit does not ring.	• The ringer volume is OFF. Press [LOUD/RINGER] briefly while the TALK indicator light is off.
You cannot store a phone number in memory.	• You cannot store a number while the unit is in the talk mode. • Do not pause for over 30 seconds while storing.
While storing a phone number, the unit starts to ring.	• To answer the call, press [TALK]. The program will be canceled. Store the number again.
[HANDSET LOCATOR] does not function.	• The handset is too far from the base unit or is engaged in an outside call.
The BATT LOW indicator flashes or the unit beeps intermittently.	• Charge the battery fully (5-A).
You charged the battery fully, but the BATT LOW indicator flashes.	• Clean the charge contacts and charge again (5-A). • Install a new battery (5-B).
If you cannot solve your problem.	• Call our customer call center at 1-800-211-PANA(7262).

5-F Adding Another Phone

This unit will not function during a power failure. To connect a standard telephone on the same line, use the Panasonic T-adaptor KX-J66. To order, call 1-800-332-5368.
Standard Telephone

Single-Line Telephone Jack

Telephone Line Cord

T-Adaptor (KX-J66)
5-G Helpful Information

• **Environment**—do not place the unit in room where the temperature is less than 5°C (41°F) or greater than 40°C (104°F). Allow 10 cm (4") clearance around the unit for proper ventilation. Avoid excessive smoke, dust, mechanical vibration, shock, or direct sunlight.
• **Routine care**—wipe the unit with a soft cloth. Do not use benzine, thinner, or any abrasive powder. When you leave the unit unused for a long period of time, unplug the AC adaptor from the outlet.
• **If there is any trouble**—disconnect the unit from the telephone line and connect a known working phone. If the known working phone operates properly, have your unit repaired by one of the authorized Panasonic Factory Service Centers. If the known working phone does not operate properly, consult with your telephone company.
6-A Preparación

Tomacorriente
(CA 120 V, 60 Hz)

Adaptador
de CA

Toma telefónica de
una sola línea (RJ11C)

Cable de línea telefónica

1 Conecte como se muestra.

2 Extienda completamente la antena.

3 Cargue la batería durante unas 10 horas.
- El indicador IN USE/CHARGE se encenderá.

Para lograr la máxima distancia de funcionamiento

Ponga la unidad base en un lugar ELEVADO y en la parte CENTRAL de la casa, donde no haya obstáculos ni interferencias de aparatos eléctricos.
